Vita Mojo Hardware Solutions 2026

Empowering your business with reliable, integrated technology.

About This Catalogue

At Vita Mojo, we partner with leading hardware providers to ensure seamless integration with our platform.

This catalogue outlines the recommended devices for POS, kiosks, kitchen displays, and payment systems. All tried, tested, and optimised for performance and reliability.

 All pricing excludes VAT and Delivery.

Hardware is delivered staged, and configurations are tailored to your operational needs.

11. Supported Installation

Hardware and Installation will be led by our Hardware and Deployment Team. The following are optional Chargeable Installation Services that can be delivered to take over the existing Hardware estate to support the launch of the VMOS system. These services aim to streamline the rollout process, avoiding internal bottlenecks and helping you go live and realise value as soon as possible.

Site Survey	Recommended for all sites: Arrange a 3rd-party company to attend the site to perform a site survey, capture all information related to the kiosk and POS/KDS placement, power, and network, and address any concerns. All works captured from this would be quoted separately. Deliverable - Confirmed network requirements, confirmed electrical work required, hardware placement confirmed, and agreement on mounting work required for placement.	£350
Full Day Installation	Hardware Installation: On-site Hardware installation will include the following Services: • In Hours Install (8:00 am -6:00 pm) or Out-of-Hours available for additional costs • Hour Day Rate available, dependent on size and complexity of job • 2 Engineers required for Kiosk install • Unpacking of new hardware • Assembly of new hardware • Installation of new hardware • Connecting of hardware to known working power & data sources - within reason • Configuration of new hardware • Full end-to-end testing of new hardware • Condensing of rubbish/packaging for client to dispose of	£450 Per Engineer £540 per day Ireland (NI and ROI)
Hardware Removal	Cost per device- Includes certificate of data deletion and disposal	£25
